AD FORMAT	DESKTOP	MOBILE	TABLET
SKIN	1,800 x 1,500px	n/a	n/a
The design can either be fixed or scroll and can either resize to fit a device screen or remain fixed (recommended). It should take into consideration that the main website (with 1,230 pixels width) will appear in front of it and that therefore text may be cropped depending on the settings chosen and the design. It is common for the skin to have minimal or no text to avoid this from happening. Skins should be saved as a static .JPG file and be provided with a tracking URL.
